NEWS BY TELEGRAPH

People in Western Colorado Don't Like the Ute Commissioners.
And Will Not Let Them Leave Their Work Unfinished.
Interesting Notes Concerning U. S. Bond Transactions.
A Census Officer Talks on the Ownership of U. S. Bonds.
Denver Furnishes a Dealer in Bogus Gold Bricks.
Two Suicides Reported from Denver, Colorado.
Rumor that Conkling will Withdraw from the Senatorial Contest.
Some News Notes from English and Irish Sources.
Doings of the Day, Good, Bad and Indifferent.
Conkling's Contribution.
New York, June 28.—A Times Albany special says: In some way Conkling men seem to have obtained information that Conkling and Platt are about to withdraw from the contest.

Blacks vs. White.
Richmond, Va., June 28.—Drunken whites and blacks quarreled in a saloon to-day. Bill Hackney, a negro, was fatally hurt, being beaten on the head and thrown from a window fifteen feet to the ground. Several others were hurt seriously.

Kelly, the Body Snatcher.
New York, June 28.—The Star's continuation of Stewart's body snatcher to-day treats of Mike Kelly, the missing hickman and traces him to California where he was working as a butcher in Sutter Street Market, San Francisco, under an assumed name. He is now employed as camp watchman at Tucson Arizona. In the interview with Judge Hilton he stated his belief in Kelly's guilt.

Two Suicides.
Pueblo, June 28.—Yesterday noon Charles Mounts, aged fourteen was run over by a Denver & Rio Grande switch engine and killed. He had laid on the track and gone to sleep with the intention to suicide. His head and feet were cut off.

Ute Indian Commissioners Must do their Work.
Denver, Col., June 28.—The Republican this morning contains an interview with U. M. Curtis, the well known Ute scout and interpreter, who yesterday arrived from the Ruby country. He expressed himself bitterly against the Ute Commissioners and said if they did not locate the Indians before fall the miners and citizens in the Ruby country and on the southwest border would take some violent measure to prevent a repetition of the present season's work. "Why," said he, "the commissioners could not locate the Indians in three years if they keep up their licks. They don't want to locate them. I know the outfit too well. Just so long as they can run around the mountains drawing ten dollars per day from the government besides what pickings they get they will never settle upon a reservation." He expressed the opinion that the miners and settlers along the border and especially those about Ruby are getting impatient, and are pressing the Commissioners to do their work this summer there will be fun when they attempt to leave the reservation to go east. He predicts that the people from Ruby to the southern boundary of the State will guard every exit and prevent the Commissioners from leaving the country. Preconcerted arrangement to stop them is already completed.

Bogus Gold Brick Bartering.
Denver, June 28.—Another gold brick swindle has come to light. The principals in the affair, as near as can be learned, are Chas. Smith, alias Charles Powell, Wm. Todd and Jas. Dempsey. Todd is an inveterate opium eater, and has been a good customer of Chin Poo, who deals extensively in opium. He represented to Poo that he knew a man who robbed a stage coach in the Black Hills, and had bar gold bullion worth six thousand dollars that he would sell for one-half that amount. The Chinaman finally agreed to buy the brick, paying therefor three thousand dollars, and some time later Poo was taken to an out of the way place in the suburbs of the city, and the exchange was made. The fraud was not discovered until about a month ago, when Poo went to San Francisco, taking the brick with him, when he tried to sell it to a brother Chinaman, who discovered the fraud. On returning to the city the Chinaman kept the affair quiet, and it was not discovered until the sheriff, getting a clue outside, charged him with the loss, and he confessed.

Cream Bread
Fresh every day at J. Graaf & Co's old reliable bakery.

Financial Figures.

Washington, June 28.—The amount of money that will be payable on account of the public debt will exceed \$30,000,000 under Windom's plan of converting six per cent. bonds into bonds bearing interest at the rate of 3 1/2 per cent. per annum. Sixteen million dollars that class of bonds were not presented for conversion and they will be paid and cancelled on presentation on and after July, together with the six months accrued interest, which will amount to nearly five hundred thousand dollars.
Of the \$519,796,000 of coupon bonds outstanding last August probably the coupons of \$400,000,000 have been returned for payment to the treasury. About \$750,000 and the semi-annual interest on the Pacific bonds, amounting to about \$2,000,000 will also be payable July first. In addition to the sums named above about five million dollars will be disbursed during the first days of the coming month on account of the continued 5 and 6 per cent. bonds, principal and interest, thus saving the aggregate amount that will become payable July first on account of the public debt to over \$30,000,000. It was proposed to anticipate the interest on the 4 per cent. bonds but this has been abandoned.
Checks for registered interest on these bonds will be mailed by the Treasurer, Thursday.
There are still outstanding over \$40,000,000. This amount consists of 5 per cent. bonds except about \$850,000 of ten-forties of the 5 per cent. funded loan called for redemption May 31st. Nearly six million dollars are still outstanding, and several sums, aggregating over nine million dollars, no longer bear interest and may be presented for payment at any time, funds to pay them being constantly held in the Treasury. The outstanding bonded debt upon which interest has ceased and which is payable upon presentation amounts to about \$11,500,000.

Who Own the U. S. Bonds.

New York, June 28.—The Tribune's Washington special says: Robert P. Porter, of Chicago, a special agent of the census in conversation with a Tribune correspondent gives full details as to the ownership of United States bonds. In the absence of exact figures I should say that the New England States own about 11 per cent of them, the Middle States about 43 per cent., the Southern States a trifle over 28 per cent., the Western States nearly 8 1/2 per cent., while banks, insurance companies and other corporations own about 3 1/2 per cent. In New York State, although the amount of registered bonds owned there is nearly \$120,000,000 out of \$650,000,000 included in this investigation there are less than 15,000 holders. On the other hand Massachusetts with nearly \$40,000,000 of bonds has nearly 17,000 holders. In my opinion the debt owned by less than 100,000 persons. Over 25 per cent. is held by banks and other corporations and it is probable that 1,500,000 persons own over \$410,000,000 of registered bonds. This aggregate is held in amounts exceeding \$50,000. On inquiry into the number of holders who own bonds in amount less than \$500 we find that in a probable 25,500 of the aggregate that it is one seventh of that reported to be held by a single bond holder. It must be remembered that many banks hold considerable in small sums in trust for people, therefore the hundred thousand doesn't fairly represent the bondholders of the country. The Sub-Treasurer in New York and twenty of the leading banking firms presented not less than three-fourths of them. This office having ascertained the exact amount of the different species of bonds presented by these firms we shall by their cooperation be able to ascertain the respective amounts forwarded to them from their correspondents abroad, the amounts of domestic 1/4 per cent. and also some cases distributed in parts over our own country. We can however, in the event of a failure to ascertain the home distribution, base our calculation on the known distribution of registered bonds, and it is not probable that the coupon bonds will differ greatly from the registered, excepting that we expect to find 100 or 150 per cent. proportionately in the larger cities of the country.

New York Notes.

New York, June 28.—The saloon keepers are organizing to make beer for their own saloons.
A medical mission has been organized to furnish poor people at the same time physicians and ministers. The plan has been a success elsewhere.
Iron moulders and other workers in New York struck because employers refuse to give them half holiday Saturdays without reduction of wages. The employers expect to fill their places and defeat the strike.

Independent Political Movement in Georgia.

New York, June 28.—The Times Washington special: Persons who have lately visited Georgia report that the Democrats are manifesting considerable uneasiness over the progress being made in that State by the independent or liberal movement. This movement is aimed against the Bourbon element in which Ben. Hill is a prominent figure and led by Alexander H. Stephens, Emory Speer, D. E. Fenton and other progressive men.

The Car.

New London, June 28.—To-day's race was an exciting one for two miles and then Harvard had it secured. It was however, very quietly watched. Harvard lost some in starting but made up in fine rowing, so that at two miles they were at even. The first mile was made in exactly five minutes; second, in 10:04; third in 16, and fourth in 21:25. Columbia's total time was 21:58.

Griscom's Condition.

Chicago, June 28.—Griscom weighed 162 1/2 pounds this morning. Lost one half of a pound in twenty-four hours. Respiration 13, pulse 52, temperature 98 1/2.

Foreign Intelligence.

IRISH ITEMS.

London, June 28.—Ireland is quiet. Sexton, M. P., active manager of the league, took the stump on Sunday in Kings county, but it is worthy of note that in his sweeping indictment against the government he made no attack upon the land bill.
Meetings were held in Cork, Waterford and Mayo, but the speakers, like Sexton, dealt almost exclusively with the coercion act, and assailed Forster.
Agrarian agitation is entirely extinct. The hay crop that has just been harvested is the best Ireland has had since before the great famine, and the potato crop seems to be extraordinarily abundant. Fisheries were never more prolific in Kingsdale district. They are using fish for manure. Then again, landlords have withdrawn ejection writs in 100 cases, and for the sake of peace and quietness are taking Griffith's valuation. Under the circumstances, the agitators find it hard work to fire the people. The priests, too, are retiring from the move. So great has been the reaction created by Irish Bishop McGearty's pastoral announcement that the prolate is coming from Rome to overhaul Dr. Croke, and it is doubtful if Father Sheehy would draw 10,000 people at Kilmallock to welcome him home if he were released to-morrow.
The government has more trouble with Ulster just now than any other of the provinces. The farmers there insist on amendments to the land bill in the tenants' interests so radical that Mr. Gladstone is afraid to accept them, and Ulster liberal members threaten to prolong the passage of the bill in committee.

GRANVILLE'S DISPATCH.

London, June 28.—Lord Granville's dispatch to the British minister at Washington regarding the Fenians in New York will probably not be completed before July 16th.

MURDER FOR MONEY.

London, June 28.—When the Brighton railway express train was stopped for the collection of tickets outside Brighton yesterday a man named Lefroy was found in one of the carriages wounded on the head and bleeding. He reported that his fellow travelers were countrymen and an old gentleman and that shortly after passing Croyden he heard a shot and was stung. The police found several bullets imbedded in the carriage and in Balcombe tunnel they found the corpse of T. J. Gald, a retired business man, who had been to London to collect dividends, with his throat cut. He was stabbed in various places. Only a pocket book containing cards was found on his person. Lefroy after having his wounds dressed started for London.

They Downed Him for \$600.

Chicago, June 28.—A New York special says that Charles Weller, President of a mining company in California, arrived in this city to-day and took rooms at the Windsor Hotel. While walking about town he became acquainted with two well dressed men who induced him to accompany them to their room, 134 east 13th street in a boarding house kept by a German woman. On arriving at the house the men introduced a game of cards by means of which they swindled the Californian out of \$600. When Weller got out on the street he informed Officer Clinchy of the 18th precinct of his loss and gave him a full description of one of the men. This swindler was arrested and gave his name as Robert Johnson. Six hundred and fifty dollars was found in his possession. Detective Hubbard recognized him as a man known to the police as Meister Boba.

Clifford's Case.

Chicago, June 28.—Yesterday the case of John Clifford vs. Wm. H. Drake for \$50,000 damages because of Drake's interview with a paper here was made to bring derogatory stories against his brother architect (Clifford) is again on trial. The plaintiff claims that he lost the job of constructing the San Francisco city hall because of this interview which defendant testified was manufactured and which was republished in the Chronicle. Neither of the papers which originally published the interview here nor the Chronicle published a correction of the false statements.

Rubber Coats of all descriptions at the New York Clothing Store.

Fine line of Straw Hats at the New York Clothing Store.
